There is more to life than surviving a crisis. The goal is to thrive for decades.

MEET DR. MOORE

A trusted medical voice

Deep clinical experience, translated with clarity and humanity

Dr. Stephanie Moore, MD, FACC, FACP, is a board-certified cardiologist specializing in cardiovascular disease and advanced heart failure. She serves as Medical Director of the Advanced Heart Failure Therapies Program at UofL Health, with clinical interests in heart transplantation and ventricular assist devices.

Her more than 25-year career spans academic medicine, federal health systems, fellowship education, quality improvement, research and program development. Before joining UofL Health, she spent two decades on the faculty of Harvard Medical School and held progressive clinical and leadership roles at Massachusetts General Hospital.

Today, Dr. Moore brings that experience to audiences beyond the clinic. Her public work connects evidence-based medicine with practical prevention, women’s heart health, healthy aging, resilience and the everyday choices that shape long-term wellbeing.

AT A GLANCE

Expertise with range

CURRENT ROLE	Medical Director, Advanced Heart Failure Therapies Program, UofL Health
CLINICAL FOCUS	Advanced heart failure, heart transplantation and ventricular assist devices
EXPERIENCE	More than 25 years across academic, federal and specialized cardiovascular programs
ACADEMIC CAREER	Two decades on the faculty of Harvard Medical School
SCHOLARSHIP	More than 30 peer-reviewed publications plus trials, reviews and guideline work
BOARDS	Internal Medicine, Cardiovascular Disease, Advanced Heart Failure and Transplant Cardiology
PUBLIC WORK	Media commentary, speaking, consulting and health education

What she brings to a conversation

- A specialist’s understanding of the most complex stages of heart disease
- A prevention-first perspective grounded in decades of clinical practice
- The ability to make medical evidence useful without oversimplifying it
- Experience building teams, training physicians and improving clinical programs
- A clear, warm and direct voice for public audiences, clinicians and health organizations

SPEAKING AND MEDIA

Conversation-ready topics

Flexible for keynotes, panels, interviews, podcasts and professional programs

Vitality and healthy aging

How movement, nutrition, connection, sleep and prevention influence the years we live and the life within those years.

Women's heart health and menopause

What women should understand about cardiovascular risk, changing physiology and the opportunity to redefine aging.

Resilience for real life

Practical strategies for staying mentally sharp, physically strong and engaged through change.

The future of advanced heart care

Heart transplantation, ventricular assist devices, mechanical support and the human side of complex technology.

Leadership in medicine

How clear roles, shared purpose, mentorship and culture shape high-performing clinical teams.

Healthcare team wellbeing

Why the oxygen-mask principle matters for clinicians, leaders and organizations caring for others.

Prevention before crisis

What decades in advanced heart failure reveal about helping people act earlier and live better.

FOR PRODUCERS AND INTERVIEWERS

Questions that open the conversation

01 What did working at the most advanced end of heart disease teach you about prevention?

02 Which everyday cardiovascular risks are easiest to overlook until they become urgent?

03 How should women think differently about heart health during and after menopause?

04 Where are transplantation and mechanical circulatory support headed next?

05 What makes a multidisciplinary heart-failure program truly effective?

06 How can people distinguish useful medical guidance from health noise online?

07 What does resilience look like when health, career or family circumstances change?

08 How can clinicians and healthcare leaders protect their own wellbeing while serving others?

CREDENTIALS

Experience behind the message

EDUCATION	B.S. in Pharmacy, The Ohio State University; M.D., University of Cincinnati
TRAINING	Internal Medicine residency, University of Cincinnati; Cardiovascular Disease fellowship, University of Utah
PRIOR INSTITUTIONS	Massachusetts General Hospital, Harvard Medical School, UMass Memorial, University of Utah and VA health systems
SELECTED HONORS	McGovern Teaching Award, AHA Heart of Our Mission Award and AHA EmPowered to Serve recognition
PROFESSIONAL STANDING	Fellow of the American College of Cardiology and American College of Physicians

Ready-to-use short bio

Dr. Stephanie Moore, MD, FACC, FACP, is a board-certified cardiologist and Medical Director of the Advanced Heart Failure Therapies Program at UofL Health. Across more than 25 years in cardiology, she has led clinical programs, trained physicians, contributed to research and quality improvement, and cared for people facing complex heart disease. After two decades on the faculty of Harvard Medical School, Dr. Moore now brings her experience to public education, speaking, media and consulting, translating advanced medical knowledge into practical guidance for longer, healthier and more vibrant lives.
